

How to...

To print: Custom print all pages so two pages print on 1 page. Print the cover page (pgs 2-3) so each student has 1. Print instruction page (pgs 4-5) and drawing page (pgs 6-7), enough for students to write and draw instructions.

1. Students watch one of the videos, individually or in a group.
2. After watching, students will create a booklet of the recipe. They need a cover page, instruction pages and picture pages.

To extend this
activity

Option 1:

Students can mix up their recipe booklet and give it to another student or group, that watched a different video, to put in order.

Option 2:

Pass around the instructions and pictures students created and have them ask questions of their peers to find their match. If time permits, provide additional pictures and instructions.

Option 3:

Students can make someone else's recipe (or their own) if resources are available.

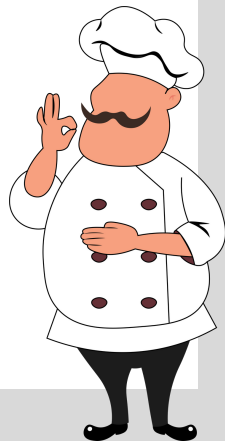

Option 4:

Students can create their own recipe, step by step, with/without pictures.

Bon appétit!
