LES ANIMAUX EN VOIE D'EXTINCTION

Projet de recherche / Research project

Tu dois rechercher un animal en voie d'extinction! Avec tes informations, tu peux faire une affiche, un PowerPoint, une vidéo (si tu aimerais présenter tes idées d'une autre façon, vérifie avec ton professeur).

You are going to research an animal that is considered close to extinction. With that information, you can do a poster, a PowerPoint, or a video (if you would like to present your ideas a different way please check with the teacher). In your project you must include the following:

- Your animal and a description of that animal.
- The habitat and a description of the habitat of your animal
- A minimum of 2 dangers to the animal and the animals habitat
- A minimum of 2 ways that the animal's habitat could be protected

Your project needs to have **visuals** and it needs to be **primarily in French**. The goal of this project is to work on your French skills so you can use smaller and simpler sentences. The more French the better! Remember, you can use translation tools to help you with your research.

N'OUBLIE PAS!!!!

Tu peux utiliser les travaux qu'on a déjà faits en classe pour cette unité!

Tous les travaux qu'on a fait ensemble vont t'aider avec ce projet!

DON'T FORGET!!!!

You can use the work we did in class throughout this unit. All the work we did together will help you with your project!

Voici quelques ressources pour t'aider avec tes recherches:

Here are some resources to help you with your research:

Linguee (translation)

WordReference (translation)

Larousse (Dictionary/Translation)

worldwildlife.org (Research)

French Wikipedia (Research)
