

PRÉVISION MÉTÉO

Ce que tu devrais dire dans ta prévision
météorologique

What you should include in your weather report.

Qui es-tu?

It is a good idea to introduce yourself to your viewers/listeners. Who are you? What channel do you work for?

Sois drôle!

Sometimes the weather can be boring to talk about, make it fun for your listeners! Start with one of the funny French expressions we learned earlier in the unit or make a fun joke!

De la neige? De la pluie? Ensoleillé?

Now the most important part of the weather forecast...
te weather! Mention what will be easiest to understand
for the listeners and then start to provide more detail
on how much rain, snow or shine you will be getting in
the next few days.
